

FEDERATION OF ALL INDIA CATERERS

Date: 20.10.2022

RECOMMENDATION LETTER

TO WHOMSOEVER IT MAY CONCERN

SUBJECT: Benefits of using Indane XTRATEJ LPG

Federation of All India Caterers (FAIC) has been working in close association with Officers of Indian Oil Corporation Limited, LPG department, Ahmedabad, Gujarat, by series of discussions of Indane XTRATEJ usage and benefits. The Central Kitchen was run by Indane XTRATEJ during the All India FAIC meet held at Gandhinagar, Gujarat, from 14 th to 16 th September'2022. The magical performance of the Indane XTRATEJ LPG was visible clearly while using 19 kg XTRATEJ cylinder at our Central Kitchen

It is practically proved and observed that Indane XTRATEJ has the following substantial benefits over regular LPG:

- * Higher flame temperature
- * Savings in overall usage of LPG, even more than 10%
- * Saving in time of cooking, more than 15%, which can be used to improve the Productivity

We are now convinced that the difference in price between a normal 19 Kg NDNE cylinder and XTRATEJ Cylinder is only Rs. 22.5/cylinder which is very meager as compared to the accrued benefits.

During FAIC meet, Indian Oil Corporation Limited also explained 5 kg NDNE cylinder (CHHOTU) and 2 kg NDNE cylinder (MUNNA), which can also be used for Live Kitchens. It is handy and can be taken from any Indane Distributor without any Address Proof.

We strongly recommended using Indane XTRATEJ LPG Cylinders and 5 kg NDNE cylinder (CHHOTU) or 2 kg NDNE cylinder (MUNNA), at all of the catering units to reap the maximum benefits.
